Prashant Piprotar

Senior Software Engineer I Backend

prashplus@gmail.com I +91 95746 30231 I Bengaluru I www.prashplus.com I linkedin.com/in/prashantpiprotar I github.com/prashplus

PROFESSIONAL SUMMARY

Senior Backend Software Engineer with 5+ years of experience and an M.Tech in Computer Science from IIT Kanpur. Builds public REST APIs, third-party financing integrations, and low-latency microservices using Node.js, Python, and Java. Strong foundation in distributed systems and high-performance computing (Apache Spark, OpenMPI) with hands-on cloud experience across AWS, GCP, and Azure, Docker, and CI/CD.

WORK EXPERIENCE

Senior Software Engineer 06/2023 – Present
Enphase Energy *Bengaluru, India*

- Designed and launched the Solargraf Public REST API and developer documentation in 4 months, reducing partner onboarding time and accelerating third-party integrations.
- Built end-to-end backend integrations with multiple Third-Party Ownership (TPO) financing providers, automating credit, lease, and purchase workflows for solar installers and homeowners.
- Defined engineering standards across the Solargraf platform by improving API performance, expanding automated test coverage, and mentoring engineers across teams.

Software Engineer 08/2021 – 05/2023
Enphase Energy *Bengaluru, India*

- Built an automated Bill of Materials (BOM) calculator with real-time pricing integration in 3 months, increasing customer satisfaction scores by 5%.
- Optimized front-end rendering and back-end database queries across core installer tools, reducing latency and shortening quote turnaround time.

Research Intern 01/2018 – 04/2018
Centre for Development of Advanced Computing (C-DAC) *Pune, India*

- Built an open-source network emulator and integrated IDE for software-defined networking (SDN), reducing setup time for researchers developing SDN applications.
- Deployed a Ceph distributed storage cluster for the SDN Online Lab, improving fault tolerance, high availability, and data retrieval speed.

SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++, SQL
Frameworks & Libraries: React.js, Redux, Next.js, Node.js, Express.js, Spring Boot, FastAPI, Material-UI
Backend & APIs: REST APIs, Microservices, WebSockets, API Design, Model Context Protocol (MCP), LangChain, LangGraph
Databases & Caching: MongoDB, MySQL, Redis
Cloud & DevOps: AWS (EC2, S3), GCP (GKE), Azure (VMs, Blob Storage), Docker, Kubernetes, CI/CD (CircleCI), Git
Distributed Systems & HPC: Apache Spark, OpenMPI, Ceph

PROJECTS

Evaluation of Spark and MPI for Scientific Data Analysis 08/2020 – 05/2021
IIT Kanpur (M.Tech Thesis) I Apache Spark, C++, OpenMPI

- Benchmarked OpenMPI against Apache Spark on distributed clusters, comparing throughput on CPU-, memory-, and I/O-intensive workloads.
- Analyzed performance on large scientific datasets from astrophysics, meteorology, and combustion simulations.

CloudMPI 01/2020 – 05/2020
IIT Kanpur I C++, OpenMPI, Distributed Systems

- Designed a cloud-aware MPI communication library that reduces the impact of network latency on distributed computation in virtualized environments.
- Optimized MPI communication primitives to handle high-latency cloud interconnects efficiently.

EDUCATION

M. Tech. in Computer Science and Engineering 07/2019 – 06/2021
Indian Institute of Technology, Kanpur *GPA: 8.6/10*

B. Tech. in Computer Engineering 07/2014 – 05/2018
CSPIT, Charotar University of Science and Technology *GPA: 9.04/10*

AWARDS & SCHOLARSHIPS

All India Rank 422, GATE 01/2019
